Unique luxurious Villa Ampelitis is a hidden gem majestically situated on a stunning hilltop in peaceful countryside, offering 360° panoramic unspoilt views of the surrounding hills, Statos-Agios Fotios village, and on a clear day, the sea. The villa, which is set within a 2000 sq. m orchard garden, (with fruit, vegetables and herbs for you to use), has no immediate neighbours and the pool and poolside cannot be overlooked. It is an ideal spot for complete relaxation as you can enjoy and sample the traditional Cypriot way of life here, yet be within easy striking distance of Paphos and its beaches. Everything needed in daily life can be found locally in the village 3 minutes' walk, and the excellent Kolios Winery which also serves pre-bookable meze, is about 15 minutes' walk.

The jewel in the crown is the gas fired heated private pool and adjoining baby pool. You decide which temperature you would like, 26°, 28° or 30° Celsius (or more) prior to your arrival, so you can book with confidence, and know you will be able to swim morning, noon and night! Pool heating and central heating for the house supplements are below.

The pool has wide steps access, internal seat and handrail and a wide door shower room (wet room) with shower, toilet and wash basin. In summer the glass doors of the pool house can slide open for easy access to the

south facing sun terraces, which have the most wonderful far reaching rural views. The pool house roof offers protection to swimmers from the hot Cyprus sun, a real benefit for children and those with fair skin.

The quality and space of this beautiful house is obvious as soon as you walk through the wide front doors. The ceiling to floor windows provide a light, informal ambiance and mosquito screening is provided at all windows. To keep in touch with the outside world Wi-Fi Internet access is provided. UK and world TV & film streaming is via a media box and Internet.

The stylish interiors were imported from Germany and include an extremely well equipped (home from home) modern stainless steel kitchen, luxurious comfortable leather furniture (reclining 1 & 2 seaters), beautiful bath and shower rooms with wide door shower cubicles. The beds can convert from single to double according to your preference.

An open plan dining area features an extending dining table for up to 10 people, 8 dining chairs plus bench. Patio doors open onto the olive tree courtyard & herb garden with built in BBQ. This features an outdoor dining area which gets the evening sun, so you can watch the changing colours of the sky whilst you enjoy your BBQ. This area is next to the pool, so you can keep an eye on your children too.

I, Irene, was involved in the concept and design of Villa Ampelitis as I found that many owners and architects alike were not considering access for those with young children (especially a double buggy), or with limited mobility. So together with the owners and an architect, we designed this unique villa with lots of level access and wide enough doors for a wheelchair user or a parent with baby buggy to get about easily. We can supply many baby, child and disability items on request. These are safely stored away, including the pool hoist, so if you, like many clients, do not need these items, you can just enjoy the space. We send a list of all optional hire items to you prior to holiday.

2 x optional studios in annexe

Between the main house (which sleeps 2 – 8) and the pool are 2 self-contained studios which sleep up to 4 persons in each. They will remain empty, unless you, the renter, add them to your booking.

The studios are compact, identical and feature the wider doors to make them accessible to all. They each have a spacious accessible shower and WC and kitchenette. The double bed is in the mezzanine (upstairs) and from here you can look over the balcony to the lounge and sofa bed below to check on children etc. I mentioned Villa Ampelitis has 360° views and from the studio terraces you can watch the sunrise from the horizon and enjoy the early morning sunshine and birdsong, whilst eating your breakfast. If you want to swim without disturbing those in the main house, the corridor takes you directly to the pool.

The reliable and consistent temperature of this heated pool means Villa Ampelitis is also available to you in low season including Christmas, New Year, Easter and October half term. In low season you will particularly appreciate the Cyprus sun's rays which will pour into the pool room, and the house will be comfortable and cosy. Having central heating and a log fire, (that you can cook over) makes staying at Villa Ampelitis a totally unique experience in Cyprus. You can even ski at Troodos mountains, just over 1.5 hours' drive, and come home and swim!

In the Cyprus villages the fresh produce is offered by van, so you may have the opportunity to experience this.

Statos–Agios Fotios village centre is 3 minutes' walk and has a small supermarket & coffee-shop, 2 x butchers, a play area for children, a restaurant and the award winning and very popular local Kolios winery with restaurant overlooking the vineyards.

Paphos in one direction and Polis in the other provide banks, restaurants, shops and supermarkets.

2 persons: We offer 12% off the main house rates for 2 persons and for 2 adults + 2 children when dates fit perfectly with current bookings. 2 bedrooms (your choice) will be made up, and 2 bathrooms will be prepared for you.

Ignore the higher rate when booking, we will adjust it manually on the Confirmation.

LOCAL AREA

One of the first things you notice here is how quiet it is. And the views! Whatever direction you drive in, there are far reaching stunning views of natural beauty, including from the villa. On a clear day you can see the sea, and with 360° degree views you can enjoy both the sunrise and sunset from the gardens.

Ampelitis Village is now known as Statos-Agios Fotios, and is situated amongst the vines on the beautiful Wine Route of Vouni-Panagia. Staying here you can easily reach historic Paphos with its daily market, interesting shops and beaches, and in the other direction, Polis, with its miles of undeveloped sand and pebble coastline. 2 local beaches are Timi and Pissouri.

In the Cyprus villages, the fresh produce is offered by van, so you may have the opportunity to experience this. In Summer, a fishmonger usually visits the village square once weekly with his refrigerated van, and a greengrocer usually twice weekly.

Statos–Agios Fotios village centre is 3 minutes' walk and has a small supermarket & coffee-shop, 2 x butchers, a play area for children and a restaurant.

If you are visiting in Winter, the owners can usually give you more of an update of what is open and when.

This area offers the perfect environment for grape growing (clean air, lots of sunshine and no humidity) and our clients really appreciate this air too, especially when returning from the coast, where humidity can be high. The award winning and very popular local Kolios winery with restaurant overlooking the vineyards is about 15 minutes' walk. The food here is meze to order and you may like to ask Nicole the villa owner to book your table next to the window, and the views are outstanding. They are open from Monday to Saturday lunchtime, closed Sundays. There is a further winery in the village called Makkas, and you can arrange wine testing at the owner's fathers house nearby. A little further on is Vouni winery which serves food, is wheelchair accessible, and the views are outstanding. Again, I recommend you pre-book your table via Nicole so you get a good view, or just go early.

Gerania tavern is in nearby Pentalia village and they have offered to collect our clients from the villa and take to the tavern and back without any extra cost. Pre-booking necessary for this. They also do take-away, as does a tavern in Panagia.

There are many walking trails locally and rare birds frequent the area. Troodos mountains are well worth a visit and the owners have a favourite easier route so please ask.

Around 15th of August there is an evening festival here and in Panagia Village. In mid-September they have the annual Village Festival here and at Easter time there are traditional activities in this area too.

The local bus runs 3 times per day into Paphos and back. I will send you lots more information on Cyprus before you go.

The studio(s) will be ready for use on arrival, along with the house. 1 studio £50 per night, 2 studios £93 per night. Heating and air conditioning included. Pool and house central heating “at cost” supplements

To be pre-booked and paid in cash upon arrival. The owners have done their best to calculate these rates according to costs charged to them, i.e. non-profit. As we are adding a supplement for pool and house heating, the rental rates have been substantially reduced, giving you more choice to add on only what you require.

June, July and August. Pool heating 26° C included (and house heating, but has never been required).

Pool heating: 1 September – 31 May: 26° Celsius €20 per day, 28° Celsius €25 per day, 30° Celsius €30 per day.

House heating: 1 September – 31 May 2 – 4 persons €20 day, 5 – 8 persons €30 day.

Fair Policy: Above mentioned prices are the highest possible, based on gas and electricity prices in Cyprus, taking into consideration the weather conditions. The owners will charge you for what your party uses, ie what they

will pay, so adjustments resulting in lower charges are possible. The owners will advise you how this works by email pre-holiday when checking your requirements, or upon arrival.

I, Irene, have swim here at all 3 temperatures, so I would say in my opinion that 26 degrees is fine if you are swimming lengths and moving around. At 28 degrees the difference is quite noticeable. If you have young children in the party or anyone with limited mobility, then I suggest 30 degrees. Use the pool cover when not in use to maintain the temperature.

Regarding the central heating, email the owners prior to your arrival to see what the weather is like and what they suggest. House heating is usually required November to end April, depending on the weather. Starter logs for the fireplace are provided free of charge.
